

To Whom It May Concern,

MEDIN is in the process of evaluating the benefits that it brings to the UK economy.

We have commissioned Economics for the Environment Consultancy (eftec) to undertake this work, which requires contact with organisations that use MEDIN. It involves an online survey to gather information which is received in confidence and will be respected as being potentially commercially sensitive.

eftec have implemented procedures to promote the safety and security of information they collect online and have implemented industry standard controls to try to ensure confidentiality.

Individual responses will not be identifiable in any way and information on organisations in general will not be shared with anyone other than MEDIN. Any information you provide will be kept in accordance with the General Data Protection Regulation (GDPR) and held on eftec's systems for a strictly limited period of time.

The information will be used to understand the benefits that organisations gain by using MEDIN and to help improve the service where possible. There is no intention to use this information to make MEDIN a paid service.

If you have any queries about this work, please contact me or the project manager for eftec, Jake Kuyer on 0207 5805383.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Robin Kuyers".

On behalf of:

Clare Postlethwaite
